

## CALL FOR APPLICATIONS

May 24-26, 2019 / Prague, Czech Republic

### Main Conference Theme: From Policy Design to Policy Practice

Organized in co-operation with Masaryk University, Brno  
and Charles University, Prague

Societal problems, as well as policy trials to solve them, are proving to be of an increasingly complex and despicable nature. This has brought about an even higher demand for evidence in the wider environment in which those problems arise - and the right answers on how to solve them must be found. Students, scholars and practitioners from the field of public policy and public administration will meet to share theoretical perspectives, empirical findings and practical experiences in order to enhance the common competence of how to think and what to do in such a demanding context.

Participation in the 27th NISPAcee Annual Conference will provide a forum to nurture such a discourse, which will be open to interested participants from all over the world.

Paper proposals are invited on the Main Conference Theme, for the General Session, selected Panels, PhD pre-conference seminar or on the themes of the various Working Groups, which are announced for the conference:

#### PhD Pre-conference Seminar
